

QCPFinancial::setData

QCPFinancial::timeSeries  
ToOhlc

QCPFinancial::data

```
graph LR; A[QCPFinancial::setData] --> D[QCPFinancial::data]; B[QCPFinancial::timeSeries ToOhlc] --> D;
```

The diagram illustrates the relationship between two methods and a data attribute in the QCPFinancial class. Two white rectangular boxes on the left represent the methods 'QCPFinancial::setData' and 'QCPFinancial::timeSeries ToOhlc'. Two blue arrows originate from these boxes and point to a gray rectangular box on the right labeled 'QCPFinancial::data', indicating that both methods interact with or modify this data attribute.
