

QCPAxis::wheelEvent

```
graph LR; A[QCPAxis::wheelEvent] --> B[QCPAxis::scaleRange]; B --> B;
```

The diagram illustrates a function call sequence. A box on the left labeled 'QCPAxis::wheelEvent' has a straight blue arrow pointing to a box on the right labeled 'QCPAxis::scaleRange'. The 'scaleRange' box is shaded gray. A curved blue arrow originates from the top of the 'scaleRange' box and points back to its top, indicating a self-call or recursive behavior.

QCPAxis::scaleRange
