

QCPCurve::QCPCurve

```
graph LR; A[QCPCurve::QCPCurve] --> B[QCPCurve::setScatterStyle]
```

The diagram illustrates a call to the `setScatterStyle` method from the `QCPCurve` constructor. It consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text `QCPCurve::QCPCurve`. The right box is gray with a black border and contains the text `QCPCurve::setScatterStyle`.

QCPCurve::setScatterStyle
