

QCPColorMapData::clear

```
graph LR; A[QCPColorMapData::clear] --> B[QCPColorMapData::setSize]; B --> C[QCPColorMapData::fill];
```

The diagram illustrates a three-step process for QCPColorMapData. It begins with a grey-shaded box labeled 'QCPColorMapData::clear'. A blue arrow points from this box to a white box labeled 'QCPColorMapData::setSize'. Another blue arrow points from the 'setSize' box to a final white box labeled 'QCPColorMapData::fill'.

QCPColorMapData::setSize
