

QCPDataRange::intersection

```
graph LR; A[QCPDataRange::intersection] --> B[QCPDataRange::isValid]; A --> C[QCPDataRange::QCPDataRange];
```

The diagram illustrates the relationships of the `QCPDataRange::intersection` method. It is represented by a grey rectangular box on the left. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing the text `QCPDataRange::isValid`. The bottom arrow points to another white rectangular box containing the text `QCPDataRange::QCPDataRange`.
