

QCustomPlot::rescaleAxes

QCustomPlot::selectedAxes

QCPAxisRect::axes

```
graph LR; A[QCustomPlot::rescaleAxes] --> C[QCPAxisRect::axes]; B[QCustomPlot::selectedAxes] --> C;
```

The diagram illustrates a relationship between two methods on the left and a single attribute on the right. Two light gray rectangular boxes are stacked vertically on the left. The top box contains the text 'QCustomPlot::rescaleAxes' and the bottom box contains 'QCustomPlot::selectedAxes'. Two blue arrows originate from the right side of these boxes and point towards a single dark gray rectangular box on the right, which contains the text 'QCPAxisRect::axes'.
