

QCustomPlot::clearItems

QCustomPlot::removeItem

QCustomPlot::removeItem

```
graph LR; A[QCustomPlot::clearItems] --> C[QCustomPlot::removeItem]; B[QCustomPlot::removeItem] --> C;
```

The diagram illustrates a relationship between three functions. On the left, there are two source functions: 'QCustomPlot::clearItems' (top) and 'QCustomPlot::removeItem' (bottom). Both of these functions have blue arrows pointing to a single target function on the right, 'QCustomPlot::removeItem'. The target function is highlighted with a gray background, while the source functions have white backgrounds. All boxes have a thin black border.
