

QCPScatterStyle::drawShape

```
graph LR; A[QCPScatterStyle::drawShape] --> B[QCPPainter::drawLine]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'QCPScatterStyle::drawShape'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'QCPPainter::drawLine'. Both boxes have a thin black border.

QCPPainter::drawLine
