

QCPColorScale::setRangeZoom

```
graph LR; A[QCPColorScale::setRangeZoom] --> B[QCPAxis::orientation]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text 'QCPColorScale::setRangeZoom'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'QCPAxis::orientation'.

QCPAxis::orientation
